Portland Me. March 14 1847

DR. UPHAM—My dear Sir—I can not express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a great sufferer to the bleeding Piles for 10 years past so much so that I became reduced to almost a skeleton with loss of appetite, and great derangement of the digestive organs. My case also became complicated and in fact I was a mere cry to myself. I was obliged to give up my business, had tried a [illegible] of medicine had the best advice in Boston and at last could afford, spent much money—and was willing to undergo painful operations. I had become perfectly tired of life and at the suggestion of my friends I was induced to try a box of your medicine. My dear Sir language cannot express the heartfelt thanks that I am under more than mortal to health and restored to a condition to support my large family depend not on me.

McAlister's ALL-HEALING Ointment,

FOR THE CURE OF

Cold, consumptive tumors, scrofula, scurvy, and all cutaneous eruptions, for bruises, ulcers, sores of all kinds, and general physical debility.

This celebrated Ointment has a most striking effect upon the blood in cleansing it from all impurities upon the surface, and finally whatever irritates the joints, and thus removes stiffness, soreness & pain, upon the lymphatic ganglion or glands, promoting the free and healthy secretion of the lymphatic fluid, and thus removes swelling of the glands about the neck, the groins the axilla or under the arm about the ear, and all other part of the body.

Thus All Healing Ointment is equally efficacious in promoting the secretions of the kidneys by healing, from retention of urine and by restoring the tone and function of the urinary organs thus preventing incontinence of urine. It is equally efficacious in acting upon the nervous system by curing neuralgia St Vitus's dance palsy, paralysis, numbness or want of feeling or power of motion from some local or general affection of the nerves. It acts with great power on all the fluids and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs.

We speak the things which we know of the astounding efficacy of this justly celebrated invaluable and worthily named "ALL HEALING OINTMENT." The innumerable puffs that have been passed, the ten thousand sufferers relieved and cured and the more than ten thousand hearts which have been comforted and cheered by its salutrious efficacy, testifying to the truth of all, and more than all, herein asserted.

UNIVERSAL HISTORY,

FROM THE

Creation of the World

TO THE

Beginning of the Eighteenth Century,

BY THE LATE

Hon. ALEXANDER FRAZER TYTLER,

LORD WOODHOUSELEE,

Senator of the College of Justice and Lord Commissioner of the Judiciary in Scotland and formerly Professor of Civil History and Greek and Roman Antiquities in the University of Edinburg

THIS Work contains the whole course of lectures on Universal History delivered by the Professor while engaged in the University of Edinburg. It appeared in the press was the last of his literary labors. It has gone through large numbers of editions in England and America. The work has been for many years and now is a text book in the Universities and Schools of this country, and is probably with the Bible the most read book in the English language. The style, beauty of composition and faithfulness of detail as the most interesting and useful work on Universal History for the time it embraces extant.

The chief characteristic feature of the plan of the author is that he rejects the popular style of book manufacturing generally according to certain epochs—and endeavors to give to the history of a nation or people through all successions of years digesting only when the history of some other nation may be interwoven with the one under consideration as it becomes separable. In this way the author gives the history of the world from the creation compiled from the best authority with great simplicity and perspicuity—and his work cannot fail to recommend itself to the professional man, the student and the general reader.

The present edition is compressed in two handsomely printed octavo volumes of 1000 pages neat bound and is offered at the low price of three Dollars. A liberal discount made to those buying to sell again or to teachers buying for their schools. All orders by mail promptly attended to.

John S. Sayward,—Editor.

WEDNESDAY, DEC. 1, 1847.

Navigation of the Penobscot river above tide water.

No little interest was felt last spring on account of the experiment of navigating the upper waters of the Penobscot by steam, under the enterprising skill of the Messrs Moore We had the pleasure of being one of the party on the first experimental trip, made last spring, from Old town to the mouth of the Piscataquis river — That trip satisfied us of the practicability of navigating the Penobscot, a portion of the year by steam between those points

This boat has been running the whole season with the exception of a few weeks during the drought of summer, between Oldtown and Piscataquis falls

We now learn that on Friday last, the proprietors of the boat resolved upon ascending the Piscataquis Falls. Wyman B S Moor Esq of this city, one of the proprietors, Capt Young and several other gentlemen from Oldtown, took passage in the boat She started from Oldtown at a quarter past 8 o'clock and arrived at the Piscataquis Falls The noble Penobscot here, in two patches, rushes over a fall of sixteen feet T e boat was put upon her course and these falls were successfully encountered and the ascent of the quick and rapid water from the mouth o the Piscataquis to the head of the falls a distance of two miles, was made in twenty minutes or at the rate of six miles an hour— All the difficulties of the navigation were overcome and the boat arrived at Mattawamkeag Point and tied up to the Military Bridge before 6 o'clock P. M, having made two landings between Oldtown and the point, two of which were nearly an hour each

The next morning, 27th, a quantity of dashings and irons for Cushman & Haylord s mills a Nickelou, and sundry other freight was taken on board, the steamer was cast off from the bridge and started for the head waters of the Penobscot She successfully encountered the wild and rapid waters of Matasseunk Rips, Salmon stream Falls and Jo Merry's Rips, and arrived at Nicketou, a distance of 11 miles, in two and a quarter hours

Having discharged her freight at the mill dam and made her town in the eddy of the waters of the east and west branch under the bluff of Nicketou Island, she left for Oldtown at ½ after 10 where she arrived at ½ before 2 P M, in time for the evening train of cars Her downward trip was performed in 6½ hours including stoppages her running time down was just 4 hours and 30 minutes The whole distance from Nicketou mills to Oldtown made a fraction over 13 miles per hour

This expedition has determined the proprietors to put a Boat upon the river in the Spring, above Piscataquis Falls, and to establish a line of steamboat communication between Oldtown and Mattawamkeag point It will be subject for the present to a portage around Piscataquis Falls and to occasional interruptions in the extreme drouth, but long before the time limited as their charter shall have expired, they confidently believe they will have an uninterrupted line of steamboat communication established between these two points and will perform occasional trips to the Nicketou and sometimes make up the east branch to accommodate lumbermen

☞ The P F S cor made her first trip from Portland to Frankfort yesterday There is so much flat ice in the river now that it is not deemed prudent for her to come up to the city The river would probably have frozen over permanently on Monday night had there not been a high freshet One or two more cold nights will put an effectual embargo on our navigation — About all the vessels have taken their departure down river, and generally the business on the river has been closed up very close and cleanly

☞ The Boston papers not on a pleasant accident in that city on the evening previous to Thanksgiving Messrs Hinckley & Lunt's locomotive manufactory, who employ 11 or 12 hundred and top men, gave each of them a turkey It was a glorious proclamation of thanks to men, each bearing home a present made to them by their employers

☞ The idea is put forth by members of the Administration, that we shall soon have a treaty of peace with Mexico, or rather that negotiations for peace will be re opened, and Commissioners, appointed on the part of Mexico to meet Commissioners on the part of the United States either here or in Mexico, or perhaps a some intermediate point at Havana

☞ The Steamer Penobscot has discontinued her trips to Bston and will make her last trip from Frankfort to morrow, to Portland, where she will haul up for the winter

☞ The Concert last evening by Mons Candelbeck and Lady and Mr Squires was admirable Our people were delighted at the musical talent displayed Another Concert will be given on Thursday evening and there will be a rush of all lovers of good music

Railroad to Newport—Country Enterprise

We understand that the inhabitants of Newport and the several town in that vicinity, have through their agents contracted with the Androscoggin and Kennebec R R Co to send on the corps of Engineers in their employ to make a survey and location for a Railroad from Waterville to Newport— the work to be commenced about the 10th proximo and completed in two months.

The country has thus put the city to the blush — Will not our people immediately adopt measures to have the survey and location continued to Bangor The railroad from Portland to Waterville is all under contract, and will be completed in two more seasons, and it is full time for active operations to bring it to this city, contracts ought to be made the coming year, and our citizens should be alive on a subject in which their interests are so deeply involved We want the products of the interior of the State to increase our trade, situate as the great lumbering, business, and promote the growth of the city and the prosperity of this whole region

Beautiful Extract.

"Rising from different and distant sources, Science and Religion, are like two mighty rivers, sometimes seeming to run in opposite directions, but yet tending to empty their waters at those same point into the same ocean. Already the dome points are exchanged across the path one which yet divides them, and the pennons which gleam from the vessels of the one we float on their surface, are found to contain each one of similar import On the one side I see it as written, 'Great and marvelous are thy works, Lord God Almighty; just are the other, and true are thy ways, O thou King of saints —and when these two currents shall unite, then shall there go up from the blended multitude, as the sound of many waters, the one undivided song of Moses and the Lamb."

SPEECH OF MR. CLAY

AT THE MASS MEETING IN LEXINGTON, KY., ON SATURDAY, NOVEMBER 13, 1847.

Continued

But I suppose it to be imposs ble that those who favor, if there be any who favor the annexation of Mexico to the United States, can mean to unite Mexico to the United States, and think that it ought to be perpetually governed by military sway Certainly no votary of liberty could dream of doing that a violation of our whole system of the great principles of liberty should be perpetrated of the most flagitious character, according to which, laws and our Constitution, ought not to be sought and not to be enacted and upon the part of the people to be governed, without representation in the part of those whom we are to obey the enactments pay the oath there we are to obey the enactments pay the oath er Then Mexicans to participate in our legislation and government and equally share in our legislation and government But, supp we the should not vol for representatives in the natural representatives in the Congress of the United States of America and the Congress of the United States of the Republic of Mexico combined became Mexican without regard o color or caste, per se ation, to exercise the elective franchise to participate in the affairs of the Government of the Union, and who can for a moment suppose that the people of Mexico, submitting or by force are to be the same people and with the same feelings, and attachments which they now bear to their present government? Ought we to desire to incorporate into our system a people so essentially different from ourselves? Ought we to be willing to incorporate into our system a people so essentially different from ourselves? Ought we to be willing to incorporate into our system a people so essentially different from ourselves? Ought we to be willing

AMERICAN AND FOREIGN OFFICE,
And Agency of the U S Patent Office, Washington
22 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U. S Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients, and manufactures, as shall be intended to be patented, or deposited therein, which will be received and forwarded, free of expense and risk, to their owners, and with all possible despatch The subscriber will prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. The experience of fifteen year's practice—an extensive collection of rare works, documents, decisions, &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts have kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents, which in other respects might be difficult of attainment.

THE

GRAEFENBERG PILLS.

THERE ARE SOME MORTIFICATE REASONS why that class of medicines denominated "PATENT," should be made the mark of ridiculeable and enduring blame to the human family. Suppose, for example, that a rich order of talent, long and sagacious observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL. Who may call his long devotion to this division of medical science crowned with the success that attends the sacrifice of ease, pleasure and health in all other things? There is no reason, and it is but the simplest dictate of the ordinary prudence to say that a Pill thus produced will at least approach as nearly to perfection as can be made by man Taken for mere duration to any one subject as I give a test of skill) the mastery over it This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science

It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE ULTIMATE OF TIME The Mariner's compass, for instance, was not invented until the "fullness of time" was reached The loadstone always lay at man's feet, but he never knew what a wonderful and unerring guide was treasured in its silent bosom, until the Divinely appointed time drew near when distant continents and islands were to be unveiled It held itself in reserve for the discovery of the adventurous sailor, enabling him to launch far away upon the unknown fields of the pathless ocean, and to return safely with the riches of a world

So with the discovery of the New World, upon whose shores was to arise the Great Nation to a power, a glory, a mission far beyond the conception of the wild adventurer The OLD WORLD reached its height of civilization, and the "fulness of time" drew near for the revelation of the NEW, and behold the immortal Columbus from the fortunate of his labors! In like manner was found it! So with the invention of printing, of steam, of the magnetic telegraph Each of these had its own "fullness of time," marked, distinct and Providential

☞ IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE REMAINED MARKED Most beautiful are the illustrations and proofs of this which are to be found in the history of the world We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the hope that *something yet better* to heal human suffering

Long the principles as true of Medicine as of Physical science are developed and shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it—The

Graefenberg Pills,

are claimed by all who have tested them to be an incomparable advance upon all other medical combinations and discoveries hitherto known and they are announced as

THE GREAT REMEDIAL TRIUMPH.

The inventor of these Pills rests his theory upon no complex system of doctrine established by the mind of man, but upon the revelation of the

ALMIGHTY CREATOR,

THAT
"THE BLOOD IS THE LIFE"

he requires at hand people and his patients *must pure the life current* that pumps through their veins and arteries, if cure they can hope for a PERMANENT cure Rectify the impurities of the blood and so cause the bright and joyous health that must come from a pure blood

But as you have all things there comes in the countless tricks of the operations which are practiced upon the public by the ignorant and so numerous and horrible that are the means of destroying, that the reader may be slow to believe, in this Great Remedy A word, therefore, on these impositions, may be given.

FROM A DISTINGUISHED GENTLEMAN OF BOSTON:

Gentlemen

I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say, that I have experienced the great relief from the effects of your Pills For many years I have suffered much from constipation, which has disarranged my whole system, and I have not known a day's good health for many years past, and began to fear, that I despaired of ever again enjoying life, but a friend recommended me to try your Pills which I did, although without any confidence the result, I am happy to inform you, has far exceeded my expectations the cause of my suffering is nearly removed, and I feel my health and strength daily renewed, and I am satisfied that the merits of your Pills, when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day"

[From Jersey ——, to GEORGIA

Sir,

Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say, that they have been of great service to me, and if they continue to give me the relief I have already felt I shall bless the day you sent them I could not allow again to the sufferings I have before told you of, but intend to persevere, and hope to be able, the next time I write to give you the happy intelligence of a perfect cure. I have heard of many instances in my neighborhood where they have performed some extraordinary cures"

FROM AN EX SURGEON MAJOR

Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own and with this sentiment strongly impressed on my mind I feel great satisfaction in having it in my power to speak in the highest terms of the value I have discovered you have made in the production of your Pills I was induced to try them, from the philosophical manner in which you have reasoned on the subject, and I must do myself the pleasure, and you the justice to say that I had no conception so speedily an effect could be arrived at My complaint has been that of the Liver, from which I despaired of getting better, but since taking your Pills, I find my general health, spirits and appetite so much improved that I hope in the course of a few months, without bodily suffering, the duties of an Ex Surgeon Major in future I will send to your agent for more Pills, when needed. The great beauty and superiority of this Sarsaparilla over all other preparations, will at once isolate diseases it energizes the body It is one of the very best Spring and Summer medicines ever known It not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine And in this lies the grand secret of its wonderful success It has performed within the past two years more than 30,000 bona fide cures of disease, at least 5000 of these were considered incurable More than

3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,

and thousands of cases of diseases of the Blood, viz—Ulcers, erysipelas, salt rheum, pimples on the face, &c, together with numerous cases of sick headache, pains in the side and chest, spinal affections &c &c

This, we are aware, must appear incredible, but we have letters from physicians and nurses all the from all parts of the United States, informing us of such cures. If Van Buren, Ky, one of the most respectable druggists in Newark, N J, informs me that he can refer to more than 150 cases in that place where there are thousands of cases in the City of New York which we will refer to with pleasure, and to such characters It is the best medicine for the preventative of disease known It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and guarded them for the summer season

UNITED STATES OFFICER

THREE CHILDREN

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been especially prepared in reference to female complaints No female can have reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period may be dreaded for several years by many this medicine Now is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all of the debilitated ones to which women are subject It braces the whole system, renews premature the natural energies—by removing the impurities of the body, not on by stimulating the system at the moment, subsequent relaxation —which is the case of most medicine taken for female weakness and disease

GREAT FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness Leucorrhœa, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or bed wetting, Change of life, and for the general prostration of the system—no matter whether this result of ignorant cause or causes produced by irregularities, illness or accident

Nothing can be more surprising than its invigorating effects on the human frame Persons subject to weakness and lassitude, from taking it, at once become robust and full of energy under its influence Immediately counteracts the nervousness of the female frame, which is the great cause of barrenness

It will not be exaggerated if we say, in cases of the delicate nature, to exhibit satisfactory proofs of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Several cases where families have been without children, after using a few bottle of this invaluable medicine have been blessed with a healthy offspring

Dr Townsend My wife being greatly distressed by weakness and general debility, and suffering continually by pain and nausea tion of bearing down pulling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, was also hearing it recommended for such ills as I have described I obtained a bottle of your Extract of Sarsaparilla, and followed the directions by the time the first period it relieved her completely and restored her to health Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public M D MOORE. Dr Townsend Dear Sir—It is with satisfaction that I say to you, that I have recently used it, in several cases, the most beneficial results from the use of your Extract of Sarsaparilla Being engaged in the practice of medicine, I have prescribed it in several cases, and never without benefit. In the removal of diseases arising from a deranged state of the digestive organs, jaundice &c, it far excels any thing of the kind ever before offered to the public. You will please send me two dozen, &c &c Respectfully yours,

RHEUMATISM

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful Other remedies sometimes give temporary relief, this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen

☞ Hear Mr Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn The following is an extract of a letter received from him

Dr Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject from an injury received several years ago in a public stage. Please send me two bottles to the care of Dr Seymour. I have conversed with two of our principal physicians and recommended your Sarsaparilla SETH TERRY.

PILES PILES!! PILES!!

Dr Townsend's Sarsaparilla is no less successful in curing this distressing complaint, than for diseases of the Blood, Dyspepsia, Rheumatism and Nervous Debility. Read the following:—

Dr Townsend Dear Sir—The effects of your Sarsaparilla are truly wonderful For the last six or eight years past I have been subject to severe attacks of the piles, during which I have suffered all the tortures of that complaint and have despaired of ever finding relief, except in death I have the pleasure to inform you that I am quite well at present I have used two bottles of your Sarsaparilla, and feel no remains of my old complaint I send you this for publication, and any person you may refer to me, I would be happy to inform of the benefit I have received at your hands
Yours truly, JOHN HALL, 49 Fulton st.
July 5, 1846.

CAUTION!

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, &c. They generally put it up in the same shaped bottles, and copy our circulars and advertisements, obtaining the phrases to flay ourselves and friends. Beware of them. Dr Townsend's, &c., having therefore to deceive the public Some use the same name as ours, are quite young sons of persons once employed men public knowledge of their deceiving others are have induced their mothers and other interested persons to allow the use of their names, in which they put 'Esquire,' to give them respectability Therefore should be on their guard, and not be so deceived
